## OUR SERVICES

### RISK AND STRATEGIC MANAGEMENT

Risk is represented in both internal and external sources. We analyse the risks involved and provide you with unique solutions.

Services specific to risk management include:

- Monitoring of critical and non-critical staff
- Monitoring of visitors and suppliers
- Monitoring and reporting of static security
- Visitor screening
- Monitoring of access control
- Reviewing of CCTV footage

### FACILITATION OF SECURITY PLANNING AND SERVICES' RISK

You get peace of mind and the ability to carry on with the daily operations of your business and we deal with all the security challenges related to your business. We are a turnkey solution provider should any security problem arise.

### FULL DEFENSIVE PLANNING

Based on your unique requirements we offer the following options to improve and enhance your security capability:

- Static security and access control management
- CCTV systems and control room management
- Risk management
- Defensive escorts and Personal protection
- Control Centre

### ARMoured VEHICLES

With a continuous growing fleet of vehicles, all fitted with the latest technologies in bullet proof film and plating, we guarantee our clients the same luxury that they would experience from the up market vehicle. We ensure that you reach your destination safely and in comfort.

### PROTECTION OF INTELLECTUAL PROPERTY

Focus has shifted from documentation, patents and other related materials to include your staff. There has been a shift towards understanding the impact that any loss will cause you in terms of delays, time spent recruiting and the amount of information only retained by crucial staff member. We offer you critical document delivery. Ensuring the traceability of documents leaving the company premises and mitigating risk involving fraudulent activity.

## PRODUCTS

We specialise in a variety of products including;

- Surveillance
- Counter-surveillance
- Personal Protection
- Overt and covert security
